

Multivapor™ P-6 / P-12

Efficient evaporation for multiple samples

Speed up your sample evaporation for multiple samples. With its ease of use, the Multivapor™ is tailored to maximize efficiency.

Efficient

Reduce your costs per sample by fast evaporation of multiple samples

Easy handling

Easy operation and highest process transparency

High process integration

Save time and minimize risks with a high degree of process integration

Multivapor P-6 / P-12: Your most important benefits

Efficient

- Increase your efficiency by processing up to 12 samples in parallel
- Increase sample throughput with a fraction collector directly using the Multivapor™
- Efficient in use for many different solvent volumes and sample sizes

Easy handling

- Intuitive operation with easily adjustable and reproducible parameter settings
- Full visibility of the samples during the evaporation process
- Easy sample handling with the sample transfer rack

High process integration

- Optimized sample transfer from BUCHI SpeedExtractor by using the same vessels
- Use your existing individual glassware with a variety of offered adapters
- Adaptable to your needs by flexible rack replacement (6 or 12 samples)
