

Combined Refrigerator and Freezer Unit

Scope of Application

This product is designed to store frozen plasma, biomaterials, vaccines, electronic devices and low temperature tests of special materials, in blood stations, hospitals, epidemic prevention stations, universities, scientific research institutes, electronic chemical industry and other enterprise laboratories.

Innovative Design

- Hydrocarbon Energy Saving
- Environmentally Friendly
- Safe, Secure and Reliable
- Intelligent Control

Qingdao Haier Biomedical Co.,Ltd.

Frequency Conversion and Energy Saving

Frequency conversion high efficiency compressor, optimized refrigeration system, more energy saving.

Green Environmental Protection

- Hydrocarbon compressor, hydrocarbon refrigerant, completely green refrigeration svstem.
- Cyclopentane foamed polyurethane insulation layer, the whole series conform to the european ROHS directive material, green environmental protection.

Large Space, Good Uniformity, Accurate Temperature Control

- Built-in evaporator, large space in the box, shelf/partition adjustable.
- Temperature uniformity of refrigerator ±3°C; Control accuracy 0.1°C.
- Freezer temperature uniformity ±5°C; Control accuracy 1°C.

Stainless Steel Inner for Easy Cleaning

Stainless steel inner tank is corrosion resistant and easy to clean.

Microprocessor Control System

- Microprocessor temperature controller; Refrigerator adjustable temperature 2~8°C, display accuracy at 0.1°C; Freezer adjustable temperature -10~-40°C, display accuracy at 1°C.
- Multiple alarm functions including high/low temperature alarm, sensor error alarm, power failure alarm, low battery alarm, door ajar alarm and high ambient temperature
- Two types of alarm indications: audible buzzer and visible flashing light. Alarm lasts for more than 48 hours after power failure.
- Standard USB & optional printer.

Ergonomic Design

Equipped with padlocks in both refrigerator and freezer to ensure storage safety

- Equipped with electrically heated glass to prevent condensation effectively (HYCD-469A)
- Equipped with overcurrent protection to ensure usage safety

Two test holes for both refrigerator and freezer as standard, allow independent testing of cabinet temperature

Refrigerator and freezer are equipped with self-closing hinges to avoid door ajar (less than 90° self-closing)
