

Vibratory Sieve Shaker AS 200 basic General Information

The vibratory sieve shakers of the series AS 200 are used in research & development, quality control of raw materials, interim and finished products as well as in production monitoring. The controllable electromagnetic drive offers an optimal adaption for every product. Sharp fractions are obtained even after short sieving times.

The AS 200 basic sieve shaker is the economical alternative of the series with familiar RETSCH quality and reliability. It features digital setting and display of performance and time.

Application Examples

cement clinker, chemicals, coffee, construction materials, fertilizers, fillers, flours, grains, metals powders, minerals, nuts, plastics, sand, seeds, soils, washing powder, ...

Product Advantages

- NEW: digital display of performance and time
- · suitable for dry and wet sieving
- · excellent separation efficiency even with short sieving times
- · efficient electromagnetic drive
- 3-D throwing motion which ensures optimum use of the open sieve area and lets the sample move equally over the whole sieving surface
- sieve stack up to 510 mm height
- free adjustment of all process parameters (time, performance)
- optional comfort clamping device
- optional evaluation software EasySieve
- maintenance-free
- · easy operation, ergonomic design

Features

Applications separation, fractioning, particle size

determination

Field of application agriculture, biology, chemistry /

plastics, construction materials,

engineering / electronics, environment / recycling, food, geology / metallurgy, glass /

ceramics, medicine / pharmaceuticals

Feed material powders, bulk materials,

suspensions

Measuring range* 20 µm - 25 mm

Sieving motion throwing motion with angular

momentum

Max. batch / feed capacity 3 kg

Vibratory Sieve Shaker AS 200 basic

Max. number of fractions 9 / 17
Max. mass of sieve stack 4 kg

Amplitude digital, 1 - 100% (0 - 3 mm)

Controlled amplitude

Time display digital, 1 - 99 min

Suitable for dry sieving yes
Suitable for wet sieving yes
USB interface Including test certificate / can be -

calibrated

Suitable sieve diameters 100 mm / 150 mm / 200 mm / 203

mm (8")

Max. height of sieve stack 510 mm

Clamping devices "standard", "comfort", each for wet

and dry sieving

Protection code IP 54 / IP 20 Electrical supply data different voltages

Power connection 1-phase

W x H x D 417 x 212 x 384 mm

Net weight ~ 35 kg Standards CE

Please note:

Function Principle

Each vibratory sieve shaker of the series AS 200 is equipped with an electromagnetic drive that is patented by RETSCH (EP 0642844). This drive produces a 3D throwing motion that moves the product to be sieved equally over the whole sieving surface. The advantage: high stress capacity, extremely smooth operation and short sieving times with high separation efficiency.

^{*}depending on feed material and instrument configuration/settings
