

QS18

17.5Litre Ultrasonic Bath

Ultrawave's **Q-Series** offers outstanding performance for use in medical, scientific, laboratory, chiropody, veterinary and many other professional environments. **Q-Series** Ultrasonic Cleaners are Class I Medical Devices, compliant to MDR (EU) 2017/745.

Incorporating Ultrawave's Frequency Leap Technology, homogenous cavitation activity is generated throughout the ultrasonic bath reducing dead spots and standing waves. This provides a more consistent scrubbing action for excellent results.

The **QS18** is a 17.5Litre heated, digital ultrasonic bath.

The menu driven control panel allows simple adjustment of cycle time (0 to 99 minutes), temperature (ambient to 70°C), ultrasonic power and frequency mode for precise and accurate processing.

Combining features such as degas mode, fluid level sensor and a memory card port, the **QS18** offers repeatable and traceable cleaning performance with consistent cleaning results every time.

Specifications are subject to change for continual improvements
