

Qi200

12Litre Ultrasonic Bath

Ultrawave's Qi-Series are robust and reliable, delivering outstanding cleaning performance in a wide range of industries. From precision, pharmaceutical and medical device manufacturing to heavy duty cleaning in automotive and engineering processing. Qi-Series Ultrasonic Cleaners are Class I Medical Devices,

compliant to MDR (EU) 2017/745.

The 2mm thick stainless steel tank provides longevity and durability whilst excellent ultrasonic activity is generated via Ultrawave's *Frequency Leap* technology.

Frequency Leap technology reduces dead spots and promotes homogenous cavitational activity within the tank. This provides a more consistent scrubbing action for highly effective cleaning results.

Specifications are subject to change for continual improvements

The Qi-200 is a 12Litre ultrasonic cleaner with a menu driven, LCD control panel. This allows simple adjustment of cycle time (0 to 99mins or infinity mode), temperature (ambient to 80°C), ultrasonic power and frequency mode for precise and accurate processing.

Incorporating features such as degas mode and a fluid level sensor, the

Qi-Series is reliable and durable, giving you consistent cleaning results every time.
