

Catalogue number: V902001

Variable Temperature Heat Sealer (VTS)

The VTS microplate heat sealer offers maximum flexibility without compromising on sealing quality. Stable heat sealing performance ensures one-time sealing, preventing sample loss through evaporation and cross contamination between wells.

Features:

- Adjustable sealing temperature & time
- 125 – 200°C seal temperature
- Unique ergonomic design
- Stable heat sealing performance to ensure one-time sealing
- Audible indication when sealing complete
- Fast warm-up time
- Comprehensive range of heat sealing foils & films available (see page 7)

The VTS requires at least ONE adaptor plate. Adaptors sold separately.

V902003 VTS Adaptor: Microtitre Plates (skirted)

V902004 VTS Adaptor: 96 Well Plates (semi-skirted/unskirted)

V902005 VTS Adaptor: Deep Well Plates

Microplates

Microplates are suitable for micro-volume applications such as sample and reagent transfer and storage; ensuring maximum sample recovery when limited sample material is available. Transparent polypropylene provides improved sample visibility, with alphanumeric coding making it easier to identify individual wells and reduce the risk of errors. For best results, use with the VTS and MicroTS heat sealers.

Features:

- Excellent chemical compatibility
- Temperature Range -80°C to 121°C
- Standard footprint 128mm x 86mm
- Easy-to-read alphanumeric label
- Polypropylene (PP)

Heat Sealing Foils & Films

Our comprehensive range of foil and film microplate heat seals are designed for sealing various plate formats; providing optimum protection against sample loss through evaporation making them ideal for long-term storage. For best results use Viti heat seals in conjunction with the VTS and MicroTS heat sealers.

Features:

- Colour coded for easy identification
- 125mm x 80mm sheets
- All foils & films available in standard packs of 100 sheets
- Custom reels of seals for automated heat sealers are available on request
- Range of seal thicknesses & formats including optically clear, peelable, pierceable & DMSO resistant
- 'This side up' markings to avoid incorrect sealing

Applications:

- Sample Storage
- Sample Archiving
- PCR
